How does Reunion Ventures process your personal data?

Below you will find an overview of the purposes for which Reunion Ventures processes personal data. In each case, it is indicated what personal data Reunion Ventures uses for that specific purpose and what the legal basis is for such processing.

Services

If you request services from Reunion Ventures, your contact details will be requested, including your name and address. In order to provide services, it may also be necessary for us to process other data. For example, information you provide to us for your file and documentation that contains data from third parties. This depends on the nature of the case and the services that Reunion Ventures provides. It may also be necessary to process this data to be able to complete your request or to be able to offer and deliver the right product or service in the right way.

The processing of your personal data for this purpose is necessary for the execution of the agreement between you and Reunion Ventures.

We may also request a copy of a valid identity document/ID card. Nevertheless, in order to process only those personal data that are strictly necessary to achieve the purpose, in particular to verify your identity and to prevent fraud, abuse or other unlawful behaviour, we will always request you to make your citizen service number (BSN) illegible in this copy. You can use the [CopyID](#) app from the Dutch government for this.

The processing of personal data contained in these documents is necessary for the execution of the agreement between you and Reunion Ventures (e.g. regarding your participation in an activity/action or investment). The processing is also necessary for the representation of Reunion Ventures's legitimate interest, in particular to verify your identity and to prevent fraud, abuse or other unlawful behaviour.

We can also process data because we are required to do so by law. There are many rules and regulations that apply to our business. For example, we can take measures to combat fraud, tax evasion, terrorist financing and money laundering. This also includes identifying you and demonstrating that we know who you are. That is why we keep a copy of your identity document or perform searches in third-party databases for the purpose of compliance with your data.

Financial administration

In order to be able to invoice you for services rendered, we process your contact details. The processing of personal data for this purpose is necessary for the execution of the agreement between you and Reunion Ventures.

Relationship management

Reunion Ventures values maintaining contact with (potential) clients and other business relations. Your (contact) data may be used to invite you to meetings or other events. We also use data to maintain central customer records, conduct marketing activities, prevent fraud, and for risk management. The processing of your personal data for the aforementioned purposes is justified on the basis of Reunion Ventures's legitimate interest.

However, for specific direct marketing activities governed by the e-privacy Directive and the Dutch Telecommunications Act, we will rely on obtaining your free and explicit consent before engaging in such activities, such as targeted ads, e-mails, text messages, WhatsApp messages and phone calls. You will have the option to provide or withdraw your consent for these specific activities.

Please note that the processing of your personal data for other purposes, such as maintaining customer records, carrying out general marketing activities, fraud prevention, and risk management, will continue to be based on Reunion Ventures's legitimate interest.

We have a central relationship administration within our group of companies. Our customer service uses this administration to see which products you have with us, so that we can answer you properly and quickly. The information we use in our records includes your name, your date of birth, your address, other contact details, information about the product or products you have with us, payment information and marketing information.

We may also share your data within the group of companies of which Reunion Ventures is a part. In addition to all subsidiaries of the shareholder of Reunion Ventures, this also includes the organizations of the direct shareholders and participating interests of the holding company (the "Group"). Within the Group, we share data for internal administrative purposes or to improve our service to you. The sharing of data in this context may also take place with Reunion Ventures's Affiliated Entities, and as a relationship with all other entities with which Reunion Ventures is (contractually) bound.

In connection with the General Terms and Conditions, you acknowledge that Reunion Ventures will process your personal, payment, and transaction data solely for the purpose of fulfilling the Terms and Conditions. This processing is carried out based on the legal ground outlined in GDPR Article 6.1(b) – 'processing is necessary for the performance of a contract to which the data subject is party or in order to take steps at the request of the data subject prior to entering into a contract.'

This processing includes sharing your information with Stichting De Bewaarder, acting as a data processing entity and/or payment office, and any other (legal) entities within the economic group or holding structure of Reunion Ventures or its Affiliated Entities.

Additionally, your data may be shared with any (legal) entities to which Reunion Ventures is (contractually) bound, in whole or in part.

This acknowledgment extends to the necessary sharing of information with third parties for ATF/AML ("Wwft") compliance monitoring services, payment service providers, and data storage services. Reunion Ventures will make the necessary efforts to identify such third parties, which may change over time, on its Site or in this Privacy Statement.

Sometimes we may have to ask for your permission separately to use data. If you have given permission in such a case, you can also withdraw it. You do not have this right when we use your data on other possible bases.
